iOS • Android • Windows RT

### Development Tools:

XCode • Eclipse • Android Studio  
Visual Studio • GIT • SVN • GDB  
SIPP • Wireshark • Fiddler

## EDUCATION

### NORTHEASTERN UNIVERSITY

#### MS IN COMPUTER SCIENCE

2010.9 - 2012.12 | Boston, MA

College of Computer and Information  
Science

### NANCHANG UNIVERSITY

#### BS IN MATHEMATICS

2005.9 - 2009.6 | Nanchang, China

College of Science

## COURSEWORK

### GRADUATE

Functional Programming(Scheme)  
High Performance Computing(C)  
Advanced Algorithms  
Computer System(C)  
Parall Computing in MapReduce(Java)  
Managing Software Development(Java)

### UNDERGRADUATE

Assemble Language(IBM X86)  
Data Structure(C)  
Intro to Database  
C Programming Language

## EXPERIENCE

### ORACLE | SOFTWARE TESTING ENGINEER

2014.2 – recent | Bedford, MA

#### TSM Project (Linux, iOS, Android platforms)

- Enhanced the existed iOS/Linux apps to test new features and maintained the existed Android Test App.
- Wrote scripts to automate more than 1,000 test cases for TSM SDK, which increased the test coverage by 500 Percentage.
- Raised 200+ prodcut defects, including critical defects that affected performance and capacity.
- Familiar with TLS/SSL security protocols.

#### SBC REST API Project

- Worked in an Agile Team and wrote automatic scripts to test API and analyzed the results.

### Integrated Computer Solutions | SOFTWARE DEVELOPER

2013.4 – 2014.2 | Bedford, MA

#### Topics (Android App)

- Used AsyncTask class to call the Restful API and parsed the reponses in JSON format.
- Bridged the UI views and the datasources by extending Android BaseAdapter class.
- Built the UI with Fragments and navigation drawer.
- Used NetworkManager Class to provide clear and convient access to the remote Server.
- Implemented unit tests for APIs with pytest in Ubuntu environment.

#### Inkarus Game (Window 8 Metro Apps)

- Integrated the Microsoft Advertising SDK and add revenue selling point for 3rd party customers.
- Implemented codes to submit the score and screenshot of the solution to Windows Azure cloud and retrieve data from cloud by using WinJS library and HTML5.
- Found andFixed animation bugs in the legacy codes.

### Acme Packet | SOFTWARE DEVELOPER INTERN

2012.1 – 2012.8 | Bedford, MA

- Enhanced an existed iOS App by fixing defects and verified them on iPhone and iPad.
- Fixed defects in existed web services applications.
- Wrote JavaScript to develop a Call-Transfer web service application with SOAP API.
- Contributed to ASC automated testing framework by writing unit tests in Python.
- Configured VMs on XenServer to run SIP tests.

### Freelancer | IOS APP DEVELOPER

HerBostonT: avaiable in Apple App Store

- Utilized the REST API provided by MTBA to get real-time data.
- Familiar with Corelocation, Mapkit, Tableview and Collection View.
- Implemented design patterns to maintain clean and clean codes.
- Used Adobe Illustrator CC to design vector images.

## SOCIETIES

- Contributed 2 defects to Apple Developer Community
- Private Pilot • Photographer • Travel Addict
